

# TANFIELD TRAIL GUIDE

Can you help  
Boris find  
the answers  
as you travel  
along the railway?

COLOUR

ME IN!

# EAST TANFIELD

At East Tanfield station, how many lamp posts are there on the platform?

.....

Using the information board at East Tanfield station, what was the name of the Andrew Barclay loco that once worked there?

.....

This is a picture of  
Tommy Armstrong:  
A famous local  
known for working in  
the Tanfield Coalfields  
and what else...?

.....

there on the East Tanfield  
station building?

.....

# CAUSEY ARCH

At Causey Arch station, take a look at the display boards.

When was the Arch constructed?

.....

What year did the last family leave Causey Arch cottages?

.....

What is the missing letter on the waggon at Causey Arch station?

.....

How tall is the Arch over the Causey Burn below?

- a) 90ft
- b) 80ft
- c) 110ft

How wide is the Arch?

- a) 155ft
- b) 145ft
- c) 105ft

If you have time, make sure to walk across the Arch... It's impressive.

**BONUS QUESTION:**

How many drainage spouts are along both sides of the Arch?

.....

# ANDREWS HOUSE

What company is advertising mustard?

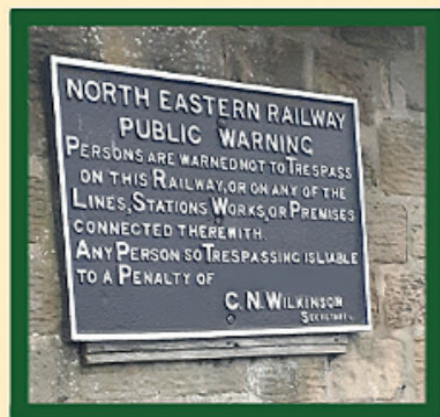

.....

What company is advertising dog biscuits?

.....

Look at the water tanks at Andrews House station, how much is the fine for trespassing on the sign?

.....

How many green and cream lamp posts are there at Station Road?

.....

The two signals at Andrews House by the wooden footbridge have numbers on them, can you write down the total of these numbers?

.....

# MARLEY HILL

Marley Hill engine shed has how many smoke chutes, so the locomotive can be fired up inside?

.....

What is the middle word on the sign at the bottom of the hill at Marley Hill engine shed?

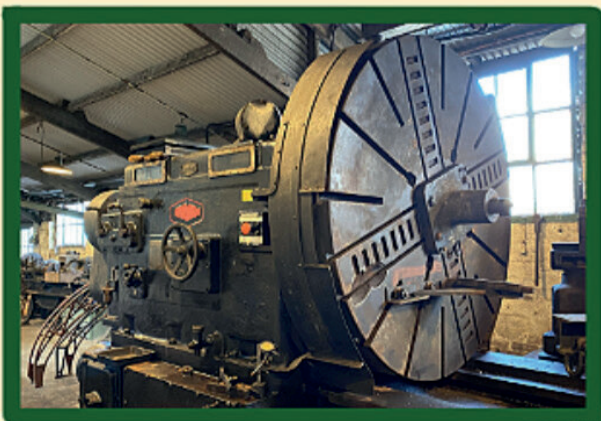

.....

What letter is missing on the teal-coloured waggon in front of Marley Hill engine shed?

.....

Inside the engine shed, take a look at the wheel lathe.

Who is the manufacturer?

.....

Inside the carriage shed, you'll find a heavy duty, industrial weighing scale.

Who is the manufacturer?

.....

How wide was the rail gauge inside the mines?

.....

## SUNNISIDE

At Sunnyside station, how many point levers are there for changing the track?

(Hint:-  
make sure to look at both ends of the station)

.....

Is Sunnyside at the northern or southern end of the line?

.....

Where was this locomotive plate manufactured?

.....

A SPACE FOR YOUR DOODLES:

---

I hope you enjoyed helping me along the railway, whilst looking around our stations and buildings! All stations are unique and have a character of their own. Did you enjoy the buildings themselves or the different notices around the stations? Perhaps the history and heritage of the different stations. I would love to know what your favourite was and why; fill in the form below and hand it in at either Andrews House station or East Tanfield station shop to be entered into a prize draw for a free family full-day pass at the railway.

.....

Name...

Age...

Email...

My favourite station is... \_\_\_\_\_

It is my favourite because...  
\_\_\_\_\_

\*This draw will be conducted quarterly throughout the year\*

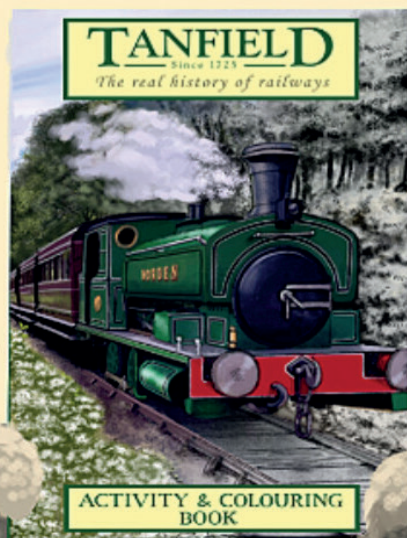

# CAUSEY ARCH

If you enjoyed colouring in the pictures in this eye-spy...they are a sample from my new Tanfield activity and colouring book, it has everything! Quizzes, mazes, spot the difference, and much more!

Make sure to buy yours from a  
Tanfield Railway shop now!
